

Diploma in Mobile Journalism (MoJo)

About Mobile Journalism

Mobile Journalism is a very recent phenomenon. It is a new workflow for media storytelling where media persons are trained and equipped for being fully mobile and fully independent.

A Mobile Journalist or Mojo is a freelance or staff reporter that normally uses portable devices such as smartphones, tablets, digital cameras or laptops for gathering, shooting, live broadcasting, editing or sharing news. News can be sent to the newsroom or can be shared directly on social media by the Mojo.
